

## Solid Fatigue-Step

### Ultra-comfortable interlocking tiles in nitrile and rubber

- Interlocking solid surface tiles in two options:-
  1. Solid Fatigue-Step (a blend of natural rubber and nitrile)
  2. Solid Fatigue-Step Nitrile (100% nitrile)
- Nitrile option has excellent resistance to oils, chemicals and grease.
- Tiles link together to provide a very comfortable anti-fatigue flooring.
- Can withstand temperatures of up to 160°C and spillage of molten glass.
- Individual tiles can be moved and replaced with ease.
- Conforms to Slip Resistance Test EN13552 Category R10.
- Optional bevelled edging in yellow or black.
