

PROWALK is a step nosing profile in polished brass and anodised aluminium for existing steps. The upper part is knurled to increase slip and slide resistance and is applied after laying. Available with holes or without holes. Available in the widths 22 x 22 and 30 x 30 mm. All the profiles are shrink-wrapped. Ideal for protecting and shielding the edges and corner between riser and tread, which are the areas subjected to most stress.

EXAMPLES AND INSTRUCTIONS FOR LAYING METHODS

Adhesive version

1: Choose the suitable profile and cut it to the necessary length.
2: Degrease, wash and clean the solid surface thoroughly. 3: Remove the protective paper from the adhesive. 4: Lay the profile by applying pressure evenly over the whole surface without using a hammer.

Punched version

1: Choose the suitable profile and cut it to the necessary length.
2: Mark the position of the holes using the existing holes in the profile as reference. 3: Insert the screw anchors into the drilled holes. 4: Fix the profile using flathead screws suitable for the relative slots in the profile.
