

## SKIRTING 80

### DESCRIPTION

**SKIRTING 80** is an aluminium skirting board profile, available with or without adhesive. Thanks to its modern design and to its five finishes, **SKIRTING 80** is a very requested skirting board profile that appears, after laying, modern and elegant.

### MATERIAL

**SKIRTING 80** is a silver anodized aluminium, polished titanium aluminium, brushed silver, copper and titanium aluminium skirting board profile with a high of 80 mm. The profile could cover a 10 mm perimetral joint and thanks to the availability of special pieces such as inside and outside corners, junctions and end caps, is an easy to lay skirting board profile.

### AREAS OF USE

**SKIRTING 80** in aluminium is suitable for indoors environment.

### WARNINGS

Do not use **SKIRTING 80** in aluminium in swimming pool and in environments where aggressive substances are used. Do not use the version with adhesive on porous supports.

### MAINTENANCE

**SKIRTING 80** does not require any special maintenance; it is suggested to clean it with normal household cleaning products.

### LAYING INSTRUCTION

1. Choose "**SKIRTING 80**" in the desired finish.
2. Cut "**SKIRTING 80**" to the desired length.
3. Remove carefully any remain of oil, fat and dirt from the surface where the profile will be laid.
4. When the surface is perfectly dry, apply silicone (in case of self-adhesive profile, remove the protective film).
5. Press the profile evenly until it is completely adherent to the wall.
6. Use the special pieces to obtain a workmanlike application.

### TEXT TEMPLATE FOR TENDERS

Delivery and installation of skirting board profile in anodized silver aluminium / polished titanium aluminium / brushed silver aluminium / brushed copper aluminium / brushed titanium aluminium. The profile, 80 mm high, could cover a 10 mm perimetral joint.
